OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

Subramanian Iyer
Inhance Technologies, LLC.
22008 North Berwick Drive
Houston, Texas 77095

Dear Subramanian Iyer :

This letter acknowledges receipt of your submission in compliance with the Toxic Substances Control Act (TSCA). A case number for your submission has been provided below.

If your submission is consolidated, case numbers are assigned to chemicals in the order in which they are listed in the notice. For example, a notice that lists chemical A followed by chemical B, will be assigned successive case numbers such as P-00-0001 for chemical A and P-00-0002 for chemical B. All other chemicals listed will proceed in that order.

The interim status and final determination made by the EPA on each submission are posted on the EPA's website at: <https://www.epa.gov/reviewing-new-chemicals-under-toxic-substances-control-act-tsca/status-pre-manufacture-notice>. Please check this website for the status of your submission using the case number given below in the designated format.

For most submissions, an EPA Program Manager will be assigned to your submission and will contact you within the first month following receipt of your submission. Any further correspondence regarding this notice should reference the case number cited in this letter and should be directed to the New Chemicals Management Branch at (202) 564-8469.

The Agency is committed to transparency and providing the public with close to real-time electronic access to pre-manufacture notices, attachments and amendments. If you discover an error in your application, please email TSCA_Submission_Error@epa.gov immediately, noting you intend to amend your submission. You can submit an amendment to your existing submission, within the CDX Section 5 reporting application, by unlocking your existing submission, correcting any errors, and submitting the updated form. Amending your existing submission will not require any additional fee payments. If you create a new submission within CDX instead of unlocking your existing submission you will be required to pay the fee for a new TSCA submission.

Visit our website for more information regarding the New Chemicals Program,
<https://www.epa.gov/reviewing-new-chemicals-under-toxic-substances-control-act-tsca>.

Submission Information

Document Type	Significant New Use Notice (SNUN)
TSCA Section	Section 5(a)
TS Number	INCN22
Review Period Start Date	12/30/2022
Review Period	90 days

Case Number(s)	SN-23-0008 SN-23-0009 SN-23-0010 SN-23-0011
Contains CBI	Y

The submitter of a PMN or MCAN must provide a Notice of Commencement (NOC) form to EPA within 30 calendar days of the date the substance is first manufactured or imported for nonexempt commercial purposes.
